Art Unit: 1745

The following is an examiner's statement of reasons for allowance: Applicant's amendment of 10/14/2003 has removed the previous rejection under §112. Since the claims recite an "acidic liquid electrolyte", the deletion of "phosphoric acid" does not broaden the claims beyond the scope of the disclosure. The Maru *et al.* reference, as pointed out by applicants, does not disclose a hydrogen storage source, but a reformer. Placing a hydrogen storage device into the Maru *et al.* fuel cell system would go against their teachings.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
